## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19 and 20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Boehm (6,485,378). Boehm discloses a golf ball comprising an inner core with a channel extending along the periphery. The outer core (mantle) is formed over the inner core such that the outer core material is disposed within the channel. The outer core also has a higher specific gravity than the inner core (col. 5). The golf ball also includes an intermediate layer and one or more cover layers.
